

2019 Victoria Hamilton Workshop Dates

Held at Mungo Brae Equestrian Centre

March

Sunday 17th – Test Riding Skills

Fantastic for riders either preparing to compete or actively doing so. Victoria starts with a demonstration where she discusses the aims of each particular level of dressage and then of the specific tests that the riders choose to ride later in the day. She also details her warm-up plan and goes through the test explaining and/or demonstrating how to ride each movement, what can go wrong and where to pick up extra marks. Riders then have a lesson with Victoria followed by the opportunity to ride a test of their choice with Victoria either helping them as they ride it or discussing it with them afterwards and re-riding certain movements.

Tuesday 26th – Test Riding Skills

April

Monday 15th – Young Rider Pre-Interschools Clinic

Tuesday 16th – Young Rider Pre-Interschools Clinic

May

Sunday 5th – Gymnasticise your Horse through lateral work

Learn how lateral work – both in-hand and under saddle is essential to develop your horse into the athlete you know he/she can become! This workshop includes a demonstration, an in-hand session and a ridden session. Leave with a clear idea of why particular exercises are of the most benefit to your horse at that stage of its training and how to execute them correctly. Great fun and of immense value for horses and riders of all levels.

Sunday 19th – Flying Change workshop Preparation 1

This new workshop is designed especially for riders who are heading towards introducing flying changes to their horses later in the year and planning to attend the Flying Changes Demystified workshop on September 22nd. So often riders attempt flying changes before their horses are truly ready, setting themselves up for unnecessary mistakes and a tense, confused horse. Victoria will check for any loopholes in your training and give you ideas on how to progress

June

Sunday 16th – Gymnasticise your Horse through lateral work

July / August

TBA

September

Sunday 22nd – Flying Changes Demystified

Have you always dreamt of riding flying changes? No idea how to start working towards this or perhaps you have started and could do with some help. Or maybe you are already riding sequences but straightness is an issue or improving the quality and uphill tendency of the changes. This will be a super day with a range of horses of different levels and types. No better way to learn that to fully immerse yourself in the subject!

October / November
